REPORT ON THE VALUE ADDED PROGRAM

1. **NAME OF THE PROGRAM:** A TWO WEEK VALUE ADDED PROGRAM ON MX ROADS SOFTWARE FOR PAVEMENT DESIGN

2. **DURATION OF THE PROGRAM:** 11-02-2019 TO 23-02-2019

3. **RESOURCE PERSON DETAILS:**

a. Mr. G. Raj Kumar, Assistant Engineer, TSPSC Bhagirathi Project

4. **DESCRIPTION OF THE PROGRAM:**

MX Road is a vastly accepted and used software based on string-based modeling which helps engineers, designers and surveyors to draw rapid and accurate designs of all kinds of roads. It is created by Bentley Systems among other engineering and architecture software and is widely used in India and other countries.

5. **OBJECTIVE OF THE PROGRAM:**

Student can quickly create design alternatives to build the ideal road system. After a final design alternative is selected, and can automate much of the design detailing process, saving time and money. As its core, MXROAD uses 3D string modeling technology.

6. **NUMBER OF PARTICIPANTS:** 50

Sub: A Two-Week Value Added Program on "**Advanced 3D modelling**" during the period 10-12-2018 to 22-12-2018 by the Department of Mechanical Engineering – Reg.

This is to inform that the Department of Mechanical Engineering is going to organize a Two-Week Value Added Program on "**Advanced 3D modelling**" during the period 10-12-2018 to 22-12-2018 for all the III year students of Mechanical Engineering Department.

Speakers : Mr. A. Ravindra, CAD Desk Trainer, Vijayawada
Date & Time : 10-12-2018 to 22-12-2018 (9.30 am to 4.00 pm)
Venue : ME Seminar Hall

All the III Year B-Tech students of ME Department are informed to attend the same without fail.

HOW TO APPLY

Application forms in the prescribed format duly filled up in all respects, along with the sponsorship certificate from the head of the institution, should reach the coordinator before the last date.

WHO CAN APPLY

This course is intended for the students B-Tech, M.Tech/Research Scholars of all engineering disciplines of Educational institutions approved by AICTE. Also persons from industries are eligible to apply. Number of seats are limited. Participants may submit an advance copy through email to the coordinator.

COURSE FEE

No Registration Fee. Certified will be awarded to the participants who have secured 75% attendance and clear the test.

Accommodation for very limited number of outside participants is available on first-come first-served and additional payment basis. No TA/DA will be provided.

Report on

A ONE MONTH VALUE ADDED COURSE ON "MULTISIM SOFTWARE"

From 13th AUGUST 2018 to 12th SEPTEMBER 2018

Number of Participants: 172

All the Participants are second year ECE students of A, B & C sections

Resource persons:

About Multisim:

Multisim was originally created by a company named Electronics Workbench Group in Canada, which is now a division of National Instruments. Along with the companion printed circuit board (PCB) layout tool Ultiboard. Multisim™ Electronics Workbench™ is industry-standard SPICE simulation and circuit design software for analog, digital, and power electronics in education and research.

Features of Multisim:

- Create circuit schematics on any platform.
- Interactive Circuit simulation with no installation.
- Same industry- standard SPICE simulation.
- Share your circuit brilliance.
- Complete Circuits Teaching solution.
- New features all the time.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

Objective :

This workshop is aimed to enhance the designing skills of students

Multisim Software integrates industry-standard Spice simulation with an interactive schematic environment to instantly visualize and analyze electronic circuit behaviour. It is a tool software for electronic circuit simulation and design, which occupies an important position in electronic virtual platform. This software provides more detailed information data analysis methods, including targeted analysis, dynamic analysis, and transient analysis of circuit static operating points. Its intuitive interface helps students to reinforce circuit theory and improve retention of theory throughout engineering curriculum.

Outcome:

In this course students learnt the functioning of basic electronic devices like Cathode Ray Oscilloscope, Function Generator and Voltage Sources using Multisim . Learnt study and analyze of Diodes, BJTs, Network Theorems, Biasing circuits, Half-wave & full-wave rectifiers. Rectifiers are introduced and their performances with different types of filters are observed and basic amplifiers. To get the ability of logic analysis from the virtual instrument, this is mainly done by using a logic analyzer . With this knowledge students are able to do mini-projects with the help of diodes and transistors.

DEPARTMENT OF ELECTRONICS AND COMMUNICATION ENGINEERING

WORKSHOP SCHEDULE :

Module 1: Working of various Diodes:

- Discussed about various types of diodes.
- Mainly diodes are classified into several types based on their working functionality such as PN Junction diode, Zener diode, Photo diode, varactor diode etc.
- Mainly concentrated on the PN Junction diode and zener diode.
- Designed forward and reverse biased condition of the PN Junction diode, Zener diode and their V-I characteristics through Multisim software.

Module 2: Verification of network theorems:

- Verified different kinds of network theorems such as thevenins theorem, nortons theorem, kirchoff's laws.
- Verified the above theorems and laws with different kind of circuits using Ni Multisim software.
- Compared both practically and theoretically measured values by designing circuits using multisim software.

Module 3: Construction and Verification of Transistors

- Known about various types of Transistors.
- Characteristics of various Amplifiers are verified using different Transistors.
- Various characteristic graphs are generated using " NI MULTISIM ".
- Input and Output wave forms are generated.
- Maximum & Minimum parameters of various input & output wave forms are observed.

Module 4: Linear wave shipping Circuits of clippers and Clampers:

- Circuits are constructed using various components in Multisim.
- Transfer characteristics of various diode clipper & clamper circuits are obtained.
- Generated sine wave with a particular frequency using digital oscilloscope.
- Positive and Negative parameters of diode clipper and clamper circuits are observed.

Head Of Department

Circulate to:

1. III year CSE class rooms.
2. Department notice board.

Value added course (optional)

Value added courses are offered to students outside the curriculum to enhance their technical and professional skills. The objectives are:

- To provide students an understanding of the expectations of industry.
- To improve employability skills of students.
- To bridge the skill gaps and make students industry ready.
- To provide an opportunity to students develop their inter-disciplinary skills.
- To inspire students to excel in their chosen careers.

Course Duration :30 hours of Theory / Practical / Both

Course Schedule :04.09.2018 to 10.10.2018 at 3.30 to 4.30 PM on all working days

Eligibility :

- All students of III B.Tech (CSE) are eligible to attend

Registration Details:

- No Registration Fee
- On first-cum-first-serve basis. Participants are limited

Important Dates:

- Last Date for Registration: 03.09.2018

Certification Criteria:

- A test will be conducted at the end of the program.
- Minimum Attendance needed:80%
- Exam Score:Minimum 60% marks in the test

Resource Person &

Course Coordinator:

Mrs. D.Suneetha
Associate Professor, CSE Department

Significance

Data Science enables companies to efficiently understand gigantic data from multiple sources and derive valuable insights to make smarter data-driven decisions.

It is a multidisciplinary approach that combines principles and practices from the fields of mathematics, statistics, artificial intelligence, and computer engineering to analyze large amounts of data.

It helps build infrastructure to store important customer data like birthdays, age, and other demographics, also confidential information related to the company's network and process.

Using scientific and analytical tools help in attaining greater efficiency and introducing agile business practices to your organisation.

Benefits

- A proven data science company can put your data to work for your business using predictive analysis and structuring your data. The data science services they provide use cutting-edge technology such as machine learning and artificial intelligence (AI) to help analyze your company's data layout and make future decisions that will work in your favor. When utilized to its full potential, predictive data allows you to make better business decisions!
- Data science has many benefits, including its ability to be implemented in the field of data security. Needless to say, there are many possibilities in this area. Professional data scientists can help you keep your customers safe by creating fraud prevention systems. Additionally, they can also analyze recurring patterns of behavior in company systems to find architectural flaws.

Significance

The PHP community is a fervent technical support to the learners. You can use the PHP components without spending any money and distribute them when others need it. User Accessible - PHP is the best user accessible programming language in the server side scripting. It is more malleable than C, C++ or ASP.

PHP is a server side scripting language embedded in HTML in its simplest form PHP allows web developers to create dynamic content and interact with databases. PHP is known for its simplicity, speed, and flexibility — features that have made it a cornerstone in the web development world.

PHP is a programming language used to script websites that are dynamic and interactive. You'll find it in various types of web applications, from e-commerce websites to CRM systems like HubSpot and Salesforce. The term PHP stands for PHP Hypertext Preprocessor..

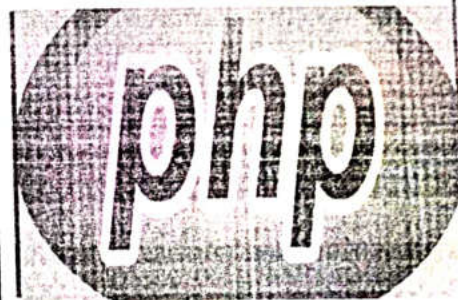

PHP (Hypertext Preprocessor) is known as a general-purpose scripting language that can be used to develop dynamic and interactive websites. It was among the first server-side languages that could be embedded into HTML, making it easier to add functionality to web pages without needing to call external files for data. Its use has evolved over the years, with regular upgrades adding features and unlocking new capabilities.

Benefits

- **It's easy to learn and use:** One of the main reasons PHP became so commonplace is that it is relatively simple to get started with.
- Even without extensive knowledge or experience in web development, most people could create a web page with a single PHP file in a relatively short period of time.
- The syntax is simple and command functions are easy to learn, meaning the barriers to entry with PHP are lower than with many other languages

About NRIIT

The NRI Institute of Technology, Pothavarappadu (NRIIT) is established in the state of Andhra Pradesh in the year 2008 under the patronage of Sri Durga Malleswari Educational society, Vijayawada, to provide quality technical education and to promote the research and development activities in Science, Engineering and Management fields.

The institution is built in a calm and serene atmosphere, surrounded by lush greenery and is well connected by college as well as public transportation. Ideally located on sprawling 20 acre Mango grooves, on Vijayawada – Nuziveedu State Highway, the campus is about 23 KM away from Vijayawada and 22 KM away from Gannavaram Airport.

NRIIT offers six B.Tech Courses in Engineering viz., CSE, IT, ECE, EEE, MECH and CIVIL Engineering and six Post Graduate programmes viz., M.Tech with five specializations viz., Computer Science and Engineering, Digital Electronics and Communication Engineering, Power Electronics and Drives, Structural Engineering, and Thermal Engineering and Master of Business Administration.

The institution is approved by AICTE, New Delhi, permanently affiliated to JNTUK Kakinada, and attained autonomous status by UGC in the year 2018. NRI Institute of Technology is accredited with “A” grade by NAAC and NBA (CSE, ECE & EEE) stand testimony to the commitment of the college to impart quality education. The College has also been awarded 2(f) and 12(B) status, apart from the recognition from the UGC. We take pride to have large pool of well qualified and experienced faculty.

Faculty:

The institution has a brilliant team of well-qualified faculty members with vast experience in teaching and research. The faculty members have varied academic background in the fields of Engineering, Technology, Humanities and Sciences. The faculty members are actively engaged in research and consultancy works and regularly publish their research findings in standard national and international journals. Some of the faculty members have received awards for academic excellence from JNTU and other governmental bodies.

About the Department

The Department of Information Technology at NRIIT was established in 2008, which offers Undergraduate Program (B.Tech) in IT. At Present, Department consists of 10 Well-Qualified Faculty with 01 Doctorate.

Objectives of the conference

Python Programming for Artificial Intelligence is a major step forward in how computer systems adapt, evolves and learns. It has widespread application in almost every industry and is considered to be a big technological shift, similar in scale to past events such as the industrial revolution, the computer age, and the smart phone revolution. This course will give an opportunity to gain expertise in one of the most fascinating and fastest growing areas of Computer Science through classroom program that covers fascinating and compelling topics related to human intelligence and its applications in industry, defense, healthcare, agriculture and many other areas. This course will give the audience a rigorous, advanced foundation in Artificial Intelligence.

COURSE CONTENTS

- Introduction to Data Science
- Mathematical and Statistical Skill
- Data Visualization & Cloud Comp
- Applied Mathematics and Informa
- Data Science Components
- Data Science process
- Deep Learning
- Machine Learning

GUIDELINES

- No participant fees will be collected
- Session time will be from 09:30 AM to 4
- Total number of participants is strictly 60
- Eligible participants will be selected ba come first serve basis and will be in email only.
