### **Introduction**

"Alumni" is a generic term that describes all those who have spent time studying at a particular institution. It is a lifetime relationship with continued interest, interaction and involvement with one's Alma mater. Alumni stand strong to prove the success of the college, and its efforts.

Alumni association of NRIIT was started in the year 2012. It was started with a motive of bringing together all the Alumni and share their experiences they faced outside the college and also extend their helping hands from all aspects for the budding engineers of the college. NRIIT Alumni association organizes various technical seminars / guest lectures, motivates and guides students for their academic improvement

A database for the alumni has been created, which will be constantly upgraded. This effort was initiated with the view to keep alive, the interaction between the alumni, so that, the alumni may, learn the where about of their batch mates, benefit from the placement cell, where in vacancies and opportunities may be put to use. This also helps in identifying potential
